## Profile

Experienced developer with over 1 year of hands-on experience developing impactful solutions. Skilled in React Native app development, he created an offline operational reporting system for an agricultural aviation company, enabling pilots to seamlessly sync reports when they had an internet connection. Jonas also implemented two-factor authentication for the security area of Sinqia using the .NET Framework. Experient in Angular, React, React Native, .NET Framework, Oracle, SQL Server, and Xamarin, He consistently deliver high-quality web and mobile applications. Currently studying Software Engineering at Unicv, he is dedicated to continuous learning and solving complex problems to drive technological advancements.

## Employment History

### Junior Developer, Intelligence Kapital

MARCH 2022

Effetively multitasked and worked well with internal and external teams.

Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.

### Fullstack Developer, ZTaurus, Aracaju

NOVEMBER 2022 – FEBRUARY 2023

Experienced developer with a focus on agricultural aviation applications, I successfully developed a mobile app for Ztaurus that revolutionized operational reporting. Utilizing React Native, I created an offline-capable app allowing pilots to generate reports in the field and synchronize them when internet connectivity was available.

### Fullstack Intern, Sinqia, São Paulo

FEBRUARY 2023 – PRESENT

Developer specializing in the Social Security area at Sinqia. Implemented robust two-factor authentication for portals and mobile apps, ensuring enhanced security. Experient in Angular, .NET Framework, and other technologies.
